FURCHTLOS

RIDE YOUR WAY

FURCHTLOS

FURCHTLOS was founded by a group of motorcycle enthusiasts with a combined 60+ years of experience in the motorcycle and auto industry who share these common beliefs:

We believe that motorcycle accessories should have the same caliber of design and engineering as the world-class bikes they're being assembled to.

We believe that kitting out your bike with accessories should feel like an upgrade and not like a compromise.

We believe that riders deserve better...better design, better functionality, and better performance.

We believe it's time for a disruption in the motorcycle accessories industry...

That's why we're pushing the limits of technology and engineering, to bring riders the high quality products that they truly desire.

RANGER

European Product Design Winner 2024 and Red Dot Winner 2023, the FURCHTLOS RANGER aluminum cases take advantage of cutting-edge hybrid case technology combining aircraft-grade aluminum with high strength polymers to offer superior lightweight performance in a sleek, rivetless structure.

With technical features such as a high security lock, robust self-blocking hinge, double limit strips, watertight sealing system, and a self-insulated structure that dampens noise and vibrations, the RANGER cases set a whole new standard for functionality, so you can enjoy the ultimate riding experience.

RANGER ADV

For extreme riders who want maximum functionality and performance from their luggage system, the RANGER ADV line has all the same technical features of the RANGER cases, but with some additional enhancements that are geared toward adventure enthusiasts.

The traditional aluminum lid is replaced by a chopped carbon version for enhanced lightweight performance, tie-down strips provide additional points for mounting objects to the top of the case, and 3M reflective details ensure high visibility to others, no matter the lighting conditions.

With RANGER ADV, you're ready to bring your adventure to the extreme.

RANGER INNER BAGS

With 4 great functions packed into 1, the RANGER Inner Bags bring a whole new level of versatility to your aluminum case storage system.

Snap the bag to the inside of your RANGER case to use it as an inner lining and have easy access to your items while traveling.

Roll the bag closed when you want to have IPX6 waterproof protection.

Use the fixation straps included to secure the bag to the top of the case or the rear of the motorcycle when you need additional storage capacity.

Then use the shoulder strap to carry your belongings with you once you reach your destination.

SHIELD

Red Dot Winner 2024 in Vehicle Accessories Design, the FURCHTLOS SHIELD line brings together high strength materials and advanced manufacturing technologies to offer the highest level of protection for your belongings without influencing the weight of your bike.

Beneath its sleek exterior shell, SHIELD contains a number of advanced engineering features that work to optimize both performance and appearance. The patented high security lock and fixation mechanisms have been meticulously integrated into the case structure to optimize internal storage capacity and achieve a clean "buttonless" exterior appearance. Hidden hinges and soft-touch comfort backrests maximize comfort for the rear passenger. And high-end finishings like two-tone parametric engravings give the product a luxury feeling.

With many different color choices and optional accessories such as comfort backrests and color lids, the SHIELD cases can be personalized to fit any riding style.

RETRO CHIC

The Furchtlos RETRO CHIC series is crafted from lightweight, high-strength materials, with watertight seals and a high-grade security lock to keep your belongings safe on every ride.

Its flowing vintage silhouette sits in perfect harmony with your motorcycle — without sacrificing everyday practicality.

Choose your custom colour match, and enjoy a multi-density foam backrest and automotive-grade felt lining that keep your passenger comfortable and your gear secure.

Built for urban commuting, day excursions and light-duty touring.

EVERETS

Made of high frequency welded PVC with hypalon reinforcements, the EVEREST bag range is designed to withstand the most extreme weather and climate conditions.

IP66 certified, these bags offer full protection against both dust and heavy rain. With that kind of protection guaranteed, there's no limit to where you can travel.

The only question is: ***How far do you dare to go?***

FURCHTLOS FAST FIT

The FURCHTLOS Fast Fit mechanism is a first-of-its-kind removable mechanism system that allows the EVEREST Side Bag and EVEREST Roll Bag to be instantly converted into quick-release soft luggage products.

Weighing less than 1kg per side and with a slim profile that's hidden within the body of the bag, the Fast Fit mechanism is the only soft luggage quick-release system on the market that doesn't require screws or tedious straps for the mechanism attachment. There's no perforation of the outer fabric layer, no need for an inner dry bag, and no clunky hardware that hits you in the leg as you carry the bag away from the bike.

The EVEREST + Fast Fit configuration is everything you've wanted in a soft luggage system – it's lightweight, comfortable to carry, IP66 waterproof and dustproof, quick-drying, easy to clean, lockable to the bike, and it attaches and releases in a matter of seconds.

Once again, the EVEREST range pushes performance to the extreme, so you can go further.

LEGACY

The FURCHTLOS LEGACY line combines timeless style with modern convenience to create a range of bags that you can enjoy carrying with you both on and off the bike.

Made of durable vegan leather and 1000D PVC lined W/R polyester that's both abrasion resistant and water resistant, these bags are tough enough to withstand the abuses of normal riding conditions, but refined enough to carry with you into the office or take on a flight.

With a timeless design and construction that's built to last, these are the kind of bags you can enjoy for a lifetime.
